

Branimir Orešek

SAP Consultant K3 PP

PROFILE

- Implementation of SAP PP solutions
- Detailed analysis of business process requirements and providing system solutions
- Troubleshooting: investigate, analyse, and solve software problems with clients.
- Support and promotion of change management activities

I am a „consultant“ for SAP-PP with more than 14 years of practical experience, characterized by reliability, patience and persistence. In the COE department, I will upgrade my knowledge and make work easier for key and end users. My participation in rollouts and experience from the field will be upgraded and used for essential business processes and their improvement. I am guided by the principles "Small steps go a long way" and "All that glitters is not gold," as I believe in a thoughtful approach and a lasting impact on every task I undertake.
